

Only from Nemco!

Easy Juicer™

Get 100% yield with virtually
0% effort—in a workhorse
that just won't quit!

Manufactured
In The USA 

Because You Can't Afford a 'Lemon'

Downtime. The kiss of death for operators like you trying to keep up with a thirsty crowd. Understanding this, Nemco built the most dependable manual citrus juicer on the market.

20:1 Odds in Your Favor

The Easy Juicer is engineered to apply maximum pressure with minimum effort in a gearing design that amplifies the user's leverage by 20x—for the ultimate in productivity and efficiency.

- Yields 100% fresh-squeezed juice—not a drop wasted.
- Combined with the ergonomic handle, it reduces operator fatigue for longer, high-volume output.
- Works with the easy-to-remove strainer cup for optimum juicing speed.

Serious Muscle Material

Better than any other manual juicer on the market, the Easy Juicer is “no-excuses” durable. It's an absolute workhorse with no quit, featuring:

- Stainless-steel rack-and-pinion gearing supported between two self-lubricating bronze bearings for enduring strength where it matters most.
- High-strength steel post for a rigid, no-fail backbone.
- Aluminum and stainless-steel construction, plus all stainless-steel fasteners for rugged durability.

Easy to Use. Easy to Clean.

Nemco incorporates a number of simple features that promote long-lasting performance for maximum ROI.

- Its compact design and small footprint make it a real space saver in storage or on the counter.
- No over-engineering means minimal chance for failure.
- Disassembles quickly for a thorough cleaning.

Suggested Uses

Gives you the reliable tool you need to produce fresh-squeezed lemonade, limeade and other citrus-based tropical drinks. Ideal for oranges, lemons and limes.

General Specifications

For Model No. 55850

Dimensions

Equipment (w x d x h)	7½" x 8⅞" x 19¼"
Shipping carton (w x d x h)	11" x 21½" x 11"
Equipment weight	10.5 lbs.
Shipping weight	12 lbs.

Replacement parts are available through Nemco's 24-hour Zip Program.

Nemco reserves the right to make design, specification or model changes without notice.

Rack-and-pinion is stainless steel to prevent tooth chipping

Pinion rod is part of the handle, running completely through the gear housing, for optimum load bearing strength

Solid high-strength steel post provides necessary rigidity

Cast-aluminum and stainless-steel construction throughout ensures lasting performance

Easy-to-grip ergonomic handle works with gearing to minimize user fatigue

Strainer funnel and cup are easy to remove for juicing speed
